Web Of Trust PGP/GPG Signing Verification Request Form

The Web of Trust aims to verify the identities of Internet users through face-to-face witnessing of identity documents.

The Applicant asks you to verify that you have physically met them and verified their identity against one or more identity documents. If you have **ANY DOUBTS** that the Applicant is whom they claim to be, do not agree to sign their key. You are **NOT** to store any identification information and must ensure this document is destroyed once processed.
